Art Unit: 1623

Applicant's amendments and remarks filed on 07/10/2006 are acknowledged. Claim 1 has been amended. Claims 2 and 13 have been cancelled. Claims 3-12 have been cancelled previously.

The rejection under 35 U.S.C. 102(b), of the Office Action mailed on 04/10/2006, has been overcome through applicants' amendment and cancellation of claims.

The following is new rejection(s) necessitated by Applicant's amendment filed on 07/08/2006.

Claim 1 is currently pending in this application.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Watanabe et al. (U.S. Patent 5,650,433) ('433).

The applicants' claims are directed toward a nutraceutical composition comprising flavone compounds of formula I and II wherein by the instant amendment the flavone moiety is substituted by a hydrogen substituent represented by R⁷, R² and R³.

The '433 patent discloses a chondroprotective agent containing as an active ingredient a flavonoid compound or a stereoisomer thereof, or a naturally occurring known glycoside thereof. Compound 1 (flavone) as disclosed in Table 1 (col.3) anticipates the limitations of the instantly claimed compound of formula I.

Regarding the phrase "neutraceutical composition", the definition of neutraceutical defines the term a food or naturally occurring food supplement that has a beneficial effect on health, the intended use of the term neutraceutical does not have any patentable weight to the composition claimed in claim 1.

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office Action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07 (a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE

MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
